

PRIME MINISTER • PREMIER MINISTRE

Message from the Prime Minister of Canada

It is with great pleasure that I welcome you to the virtual celebration of Villa Charities 50th anniversary.

Since its humble beginnings of serving Italian-Canadians and their families, Villa Charities has grown over the past five decades to meet the needs of individuals in the Greater Toronto Area. Throughout the years it has provided essential services for its elderly residents and delivered cultural and educational programs to strengthen the community as a whole.

On behalf of the Government of Canada, I would like to thank all the staff members and volunteers at Villa Charities for their hard work and dedication in supporting residents and creating an environment where inclusivity is embraced. Their steadfast commitment to the communities that they serve has resulted in the success of the organization.

Let us also take this opportunity to acknowledge and recognize the important role that Italian-Canadians have played in Canada. They have immensely contributed to our nation's collective identity and our multicultural society.

As we look back at the past and celebrate the accomplishments of Villa Charities, let us also look towards its future with hope and optimism. I am certain that it will continue to provide the same exemplary services and programs for community members.

Please accept my warmest congratulations on this special milestone!
