

DO YOU HAVE ITALIAN ROOTS?

Italian-Canadian artist Christopher Webb is developing a major exhibition exploring memory, migration, and identity within the Italian diaspora, to be presented at *CREA - Cantieri del Contemporaneo* in Venice in late 2026.

Through brief conversations with other individuals of Italian heritage, personal memories of Italy are translated into atmospheric, memory-driven, nostalgia-based paintings. Those with any connection to Italian lineage are invited to take part.

A current work in progress based on a short conversation. Christopher hopes to produce over 30 paintings for the exhibition.

If you have a moment please contact Christopher to share a memory or two of Italy and your family that has stayed with you.

- Your story may become part of an exhibition in Italy
- Open to all backgrounds and generations
- Maximum 10-minute conversation
